

DECEMBER 2024 SPOTLIGHT

THIS MONTH AT VISION ILLUMINATION

A BUSY MONTH OF SITE VISITS AND INSTALLATIONS

This month has been full of exciting projects and site visits for Vision Illumination. We were thrilled to supply retrofit LED plates for Northumbria University's campus, enhancing efficiency while maintaining their existing infrastructure.

It was also fantastic to see our Heritage Lantern installed right in the heart of Newcastle, blending modern technology with a timeless aesthetic.

Site visits took us further afield to Flintshire, Wales, where we viewed our Valiant I Lantern and Nano Solar Sign Lights in action, showcasing their performance in real-world conditions.

Closer to home, Durham County Council installed additional Nano Solar Sign Lights in Maiden Law, County Durham, further demonstrating the versatility and reliability of our solutions.

It's been a productive month, and we're excited to continue illuminating spaces across the UK!

JOHN IMRIE JOINS VISION ILLUMINATION!

We're excited to announce that John Imrie is joining the Vision Illumination team as a Electrical Engineer.

John brings a wealth of experience in electrical solutions and a strong focus on safety, efficiency, and reliability. His expertise will be a fantastic addition to our projects as we continue to deliver innovative and high-quality streetlighting solutions across the country.

Welcome aboard, John! We look forward to the bright results ahead.

INTRODUCING THE PHOTOCELL POWER TAP

We're excited to now offer the Photocell Power Tap, a smart solution for providing mains power directly from the NEMA socket on our lanterns. This versatile addition opens up endless possibilities, from powering CCTV cameras and pollution detectors to festive Christmas lights and other small devices. A simple, effective way to enhance functionality while making the most of existing infrastructure.

Innovative, practical, and ready for a range of uses!

At Vision Illumination, we're not only welcoming new team members but also investing in the development of our existing staff. As part of our commitment to enhancing expertise and delivering even better customer satisfaction, some of our team will be attending the ILP Exterior Lighting Diploma this spring. By continually improving our knowledge and skills, we're ensuring we stay at the forefront of the industry and provide the best possible solutions for our customers.

SEASON'S GREETINGS FROM VISION ILLUMINATION!

As we wrap up a fantastic year, we want to take a moment to thank all our customers, partners, and team members for their continued support throughout 2024. Your collaboration has been at the heart of everything we've achieved, and we're excited for what's to come in 2025!

Please note that our offices will be closed from the 24th of December and will reopen on the 6th of January. During this time, we'll be monitoring emails to assist with any urgent queries.

From all of us at Vision Illumination, we wish you a Merry Christmas and a Happy New Year! Here's to a bright and successful 2025.
